THE WESTERN TERRITORIES.

A comparative statement of the area of the present States with that of the territory destined to be erected into States exhibits the inter-ceting fact that the area of the latter in square miles exceeds that of the former The superficial area of the Territories, organized and un-organized, is set down as follows: | Square miles. | Square miles. | Square miles. | Kansas Territory | 136,000 | New Mexico Territory | 210,000 | 141,000 | Nebracka | do | 528,000 |

It is seen that the area of Ransac is nineteen thousand square miles greater than that of all New England, New York, and New Jersey; and that the area of Nebraska is ninety-five thousand miles greater han that of all the non slaveholding States except California. Oregon is nearly equal in extent to all New England, New York, Pennsylvania, Ohio, and Indiana. It is possible that New Mexico and Mesilla will be embraced in one territorial organization by Congress at the present session, containing 288,000 square miles—exceeding all New England, New York, Pennsylvania, Ohio, Indiana, and Illinois. Wash bacton exceeding all New England, New York, Pennsylvania, Ohio, Indiana, and Illinois. Wash bacton exceeding in extent all New England and New York.
